Full-Service Contract Hire

With over 45 years of experience in the UK market, we pride ourselves on knowing how to deliver a tailored contract hire package to match the needs of any business.

A trusted fleet and mobility partner that works to industry-leading best practices, Fraikin offers unrivalled customer service that helps deliver true value for money.

Tailored fleet solutions, specifically designed to optimise your business

Predictable, cost-effective, connected vehicle support

Our vastly experienced team ensures we're able to provide rapid, responsive, quality customer service. Designed specifically to optimise your vehicle uptime and fleet compliance, contract hire with Fraikin removes the stress associated with vehicle financing, with all servicing, maintenance, administration and documentation managed for you, leaving you free to focus on your core business.

97%
vehicle
uptime

Cost-effective solutions that help you gain the competitive advantage

Immediate availability of vehicles in stock, minimising the impact of extended lead times

Combining a philosophy of total manufacturer independence, alongside extensive operational and technical experience, we can deliver a complete management solution. This includes comprehensive fleet evaluation, alternative fuel analysis, and a hassle-free proactive build management programme, guaranteeing your vehicles are designed to your exact requirements and supplied in your livery.

Long-term stability, guaranteed flexibility

Whether you're due a fleet refresh, need to expand your operations, or simply want to release capital tied up in vehicles for investment elsewhere, Fraikin can help.

Through our Fraikin Business Solutions consultancy service, we can create a tailored contract hire solution that both meets your needs today and provides flexibility to adjust as and when your business needs change.

By maintaining a fully independent stance regarding manufacturers, suppliers and technology, you can rest assured that your precise operational needs will be met in a way that works for you.

Intelligent connected fleet management

Many of our customers are already putting Fraikin's suite of MYSMARTFLEET solutions to excellent use, calling on our analytical support to streamline workflows, cut costs, improve safety and reduce their carbon footprint.

As standard, our contract hire customers can access our turnkey SMART BASICS connectivity bundle, but the full range of MYSMARTFLEET packages deliver anything from remote monitoring of temperature-controlled units to real-time driver coaching.

Our easy-to-use customer web portal, FraikinView, also provides a complete overview of all scheduled maintenance work, providing the ability to track and monitor any progress to ensure you have a complete overview of your fleet.

Financial security

Of course, a key benefit to contract hire is the ability to efficiently manage your finances, with customers benefiting from:

- ▶ Off-balance sheet funding
- ▶ Predictable and stable costs fixed for the contract term
- ▶ No reduction in your ability to borrow funds for other purposes
- ▶ Ease of forecasting and budgeting
- ▶ Vehicle provision can be paid for out of revenue
- ▶ Sale and leaseback of existing vehicles to release capital
- ▶ No hidden costs

Multi-sector support

Through our long standing supplier relationships we can provide a wide range of vehicle types, fitted equipment and powertrain technologies applicable to all sectors.
